Hello Beam

Count the Hearts

NUMBERS 1 TO 10

For the grown-up

Ten pages to color and count, for children aged 5 to 7. Each page has one number: the number and its name to color, that many things to count and color, and the same number riding on a ten-seat train.

Read the bold lines at the top of each page out loud. Say the number together. Touching each thing while counting is welcome, and so is counting out loud.

Go in order, or let your child pick any page. Any colors are fine, and staying inside the lines does not matter. A page can stay half done. Stop whenever your child is ready to stop.

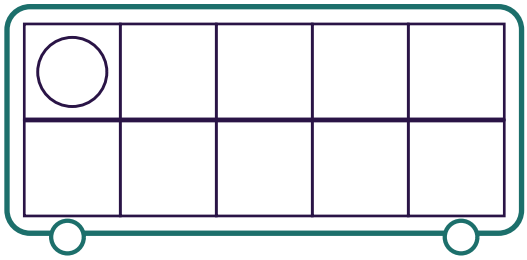

Print at actual size (100 percent) on US Letter or A4, one side of the paper. Crayons or pencils are fine.

This book goes with the Hello Beam beta, a calm numbers game for a tablet. Learn more at playhellobeam.com.

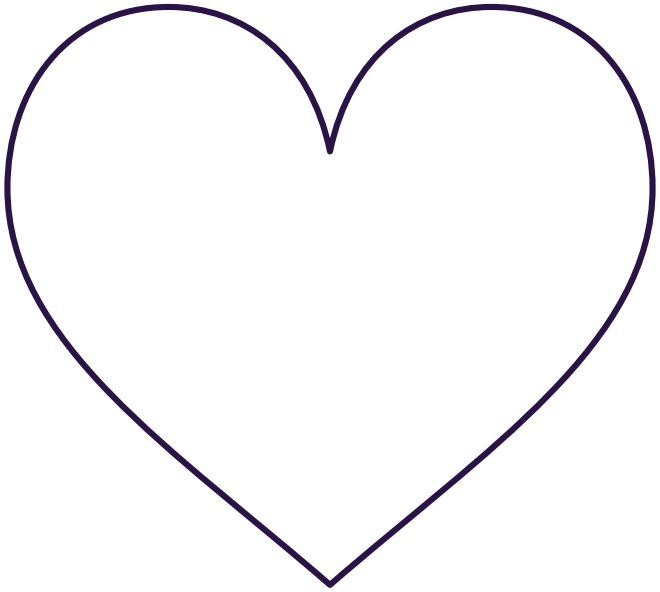

Find the heart. Color it in.

1

one

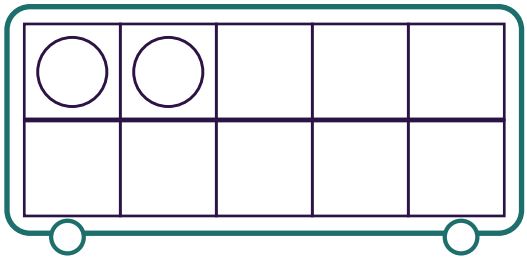

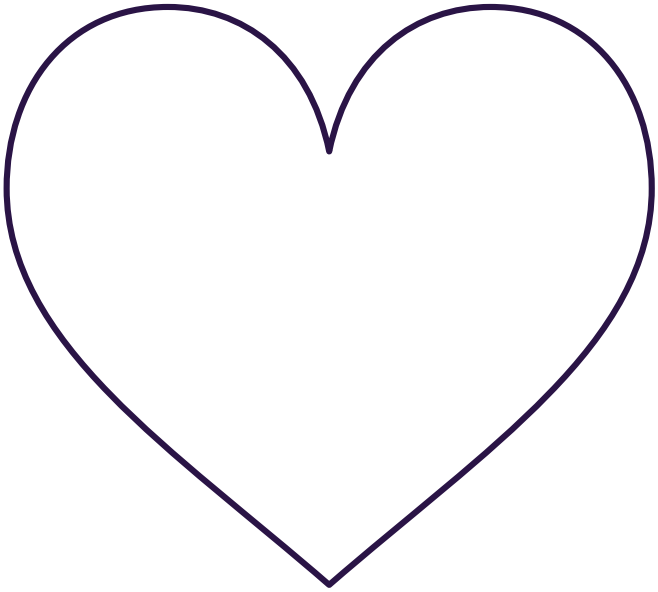

Count the hearts. Then color them in.

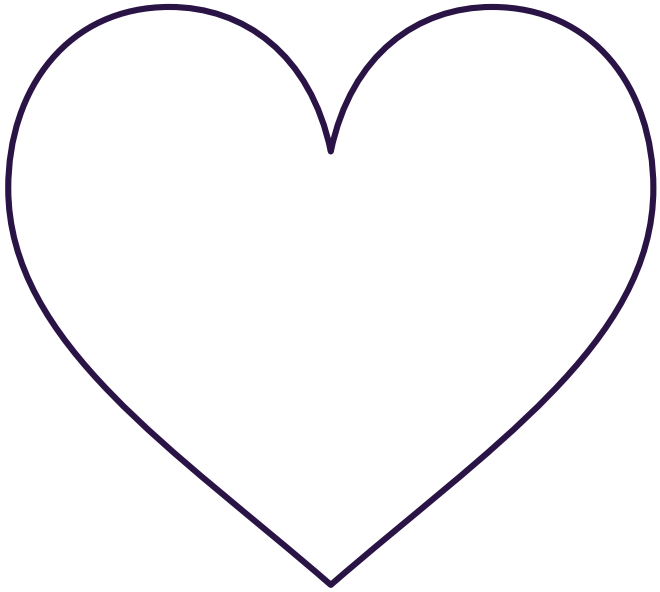

2

two

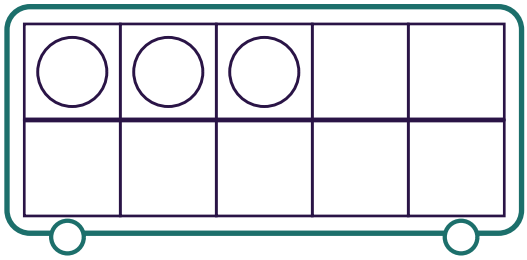

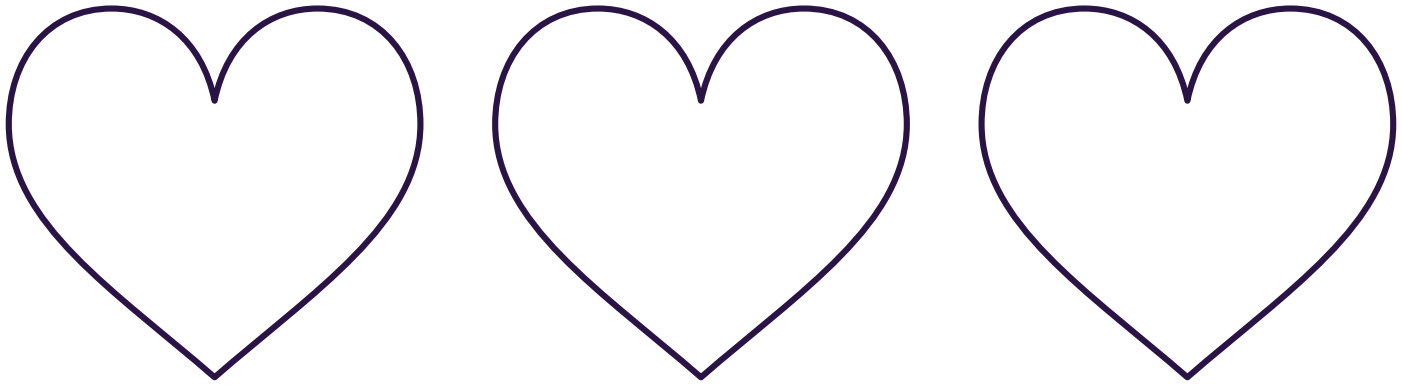

Count the hearts. Then color them in.

3

three

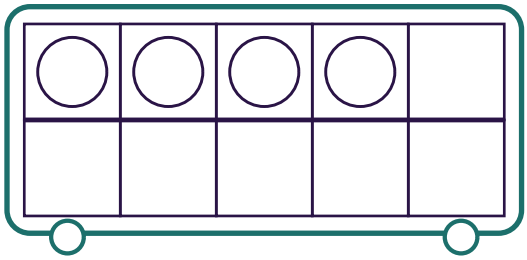

Count the hearts. Then color them in.

4 four

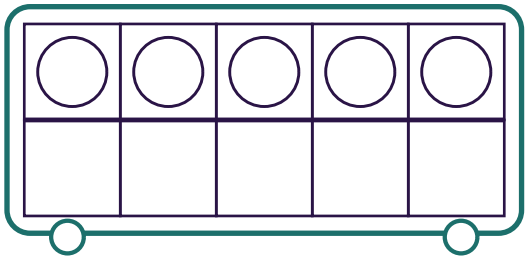

Count the hearts. Then color them in.

5

five

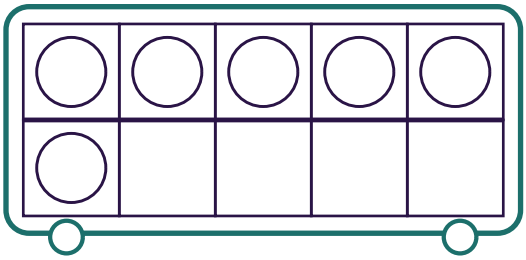

Count the hearts. Then color them in.

6

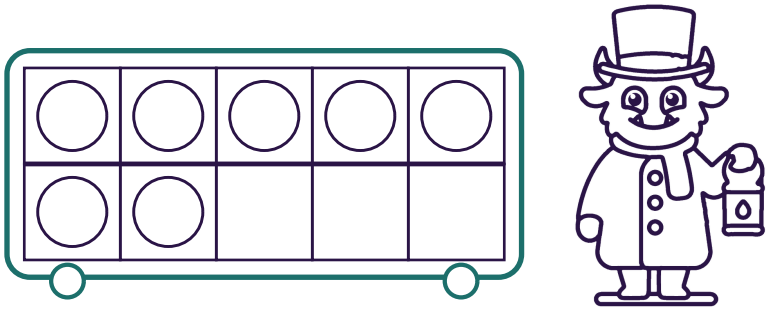

six

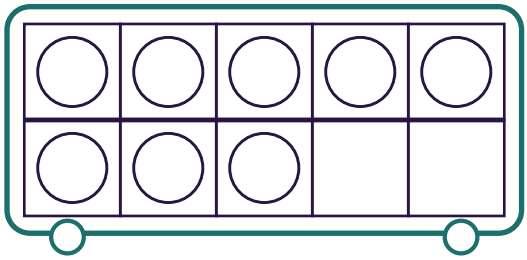

Count the hearts. Then color them in.

7 seven

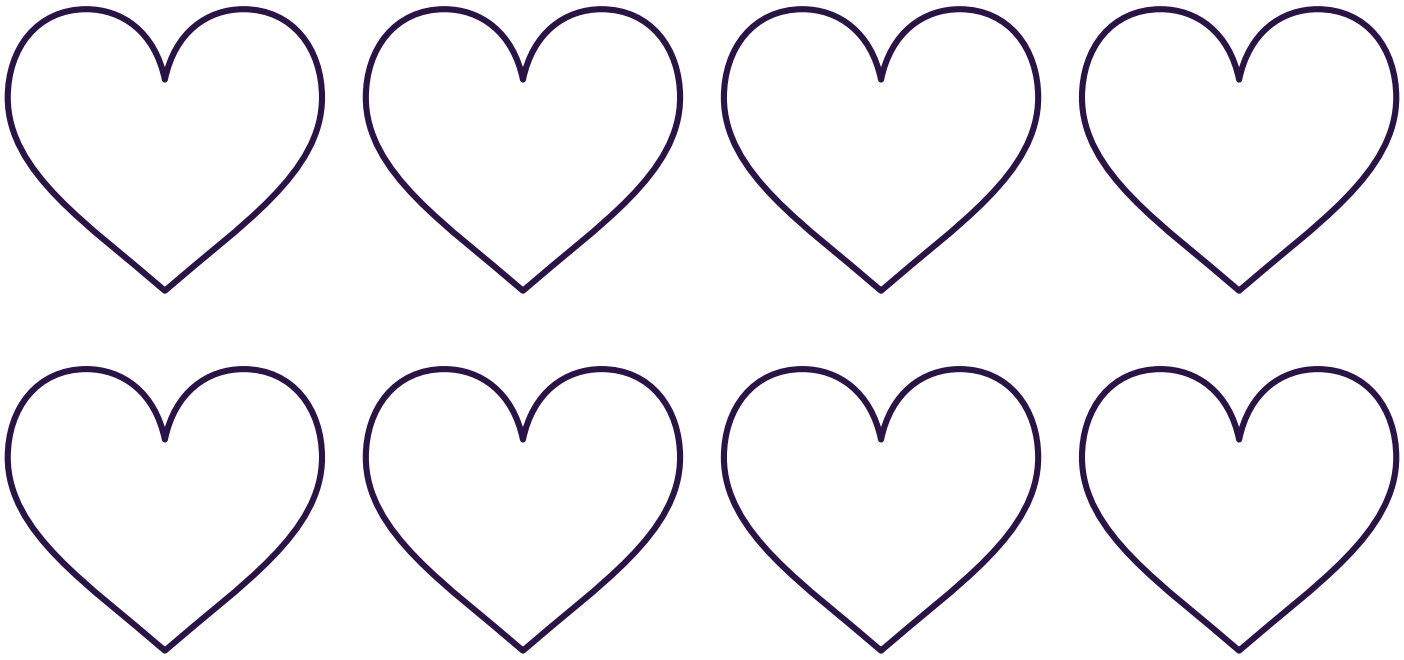

Count the hearts. Then color them in.

8 eight

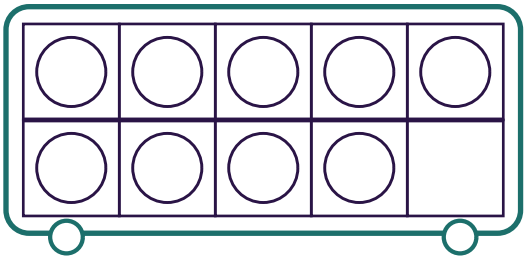

Count the hearts. Then color them in.

9 nine

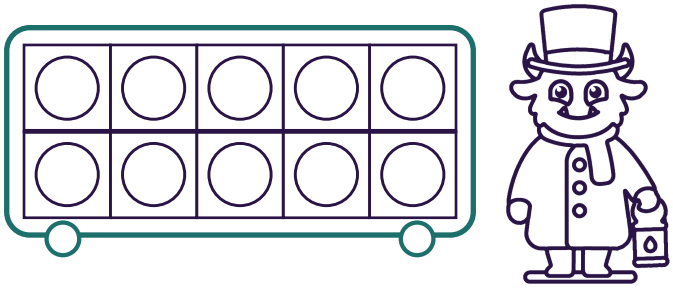

Count the hearts. Then color them in.

10

ten
