Count the hearts. Then color them in.

1 one	♡
2 two	♡ ♡
3 three	♡ ♡ ♡
4 four	♡ ♡ ♡ ♡
5 five	♡ ♡ ♡ ♡ ♡

For the grown-up

Hearts to color and count, for children aged 5 to 7. Each row has one number: the number, its name, and that many hearts.

Read the bold line at the top out loud. Say the number together. Touching each thing while counting is welcome, and so is counting out loud.

Any colors are fine, and staying inside the lines does not matter. One row is plenty, and rows can stay empty. Stop whenever the child is ready to stop.

In a class, talk about what each child chose and how they counted, not about who finished or whose is neatest.

Print at actual size (100 percent) on US Letter or A4. Crayons or pencils are fine.
